Our Mission: To Provide all the valuable Customer the best possible satisfaction for their money, facilitating them with one stop Knitwear sourcing services.

Our Message

- ✓ Provide highest quality in every regard.
- ✓ Use quality products at the best price possible.
- ✓ Our reputation lies in our word and our work we will never sacrifice in either.
- ✓ Our strength lies in our associates, we strive to provide working atmosphere that they can be proud of.
- ✓ We firmly believe whatever happens in the company is our responsibility and the founding vision of the company is always adhered to.

CORE VALUES & LEADERSHIP

Our Core Values: Quality, Timeliness, and Service Excellence

At V-Teac, we place customer satisfaction at the heart of everything we do. Our success stems from three core pillars:

High-Quality Products: We never compromise on quality.

On-Time Shipments: We understand the importance of timely delivery for our clients.

Efficient Service: We focus on providing tailored solutions to meet each client's specific needs.

Through these principles, we ensure our customers receive personalized attention and products that exceed expectations.

Skilled Leadership & Team

Our experienced management team drives V-Teac's success. With a wealth of experience in garment manufacturing and industry-specific knowledge, we ensure efficient operations, dedicated work processes, and seamless coordination. This translates into high-quality outcomes that keep our clients coming back.

PRODUCTION FACILITIES

Merchandising Department: Our Merchandising department consists of 2 senior merchandisers and 3 assistant merchandisers. This team is responsible for coordinating between clients and production teams, ensuring timely delivery of products, managing orders, and maintaining inventory levels. They play a crucial role in sourcing materials, negotiating with suppliers, and overseeing the entire merchandising process to meet customer specifications and quality standards.

This section includes one qualified Pattern Designer who is responsible for creating and developing garment patterns based on design specifications. This designer ensures accuracy in fit and style, collaborating closely with the Sample and CAD sections to translate design concepts into workable patterns. Their expertise is crucial in maintaining quality and consistency in the production process.

Knitting Department: Advanced circular knitting machines

Knitting Section:

- Machines: 5 Circular Knitting Machines (Brand: LISKY, Taiwan) with Full Feeder Lycra attachments.
- Production Capacity: 1.5 tons of fabric per day.
- Fabric Types: Single Jersey, Pique, French Terry, Yarn-Dye Stripe, Plated Fabric, Drop Needle, Semi-Jacquard, Honeycomb, Waffle, etc.

Garments Department: Modern sewing machines, cutting and pattern-making tools, CAD systems, and more. All our machines are state-of-the-art and sourced from European manufacturers, ensuring precision, efficiency, and world-class quality.

GARMENTS SECTION:

- 1. **Sample Department:** Comprises 11 staff members. Led by a Sample In-charge responsible for department oversight.

- 2. **CAD Section:** Located adjacent to the Sample Department. Equipped with high-quality CAD machines. Managed by a skilled CAD designer for accurate and efficient garment design.

3. **Cutting Floor:** This Floor operates with a team of approximately 64 people, responsible for cutting fabric according to design specifications. Equipped with advanced cutting machines, the department ensures precision and efficiency while minimizing fabric waste. The Cutting Floor works in close collaboration with the CAD department to guarantee accurate execution of design patterns.

Sewing Section 2

5. Quality Department:

- Ensures all products meet strict quality standards.
- Conducts inline and final inspections to identify and rectify defects.
- Performs fabric testing for shrinkage, colorfastness, and strength.
- Adheres to international standards like BSCI, Accord Alliance, and Sedex.
- Works closely with production teams to ensure customer specifications are met.

6. **Finishing Department:** The Finishing Floor at V-Teac Fashion Pvt. Ltd. is staffed by 156 skilled employees dedicated to ensuring high-quality garment production. It is equipped with essential machinery, including 8 Thread Sucking Machines for thread removal, 36 Steam Irons with Vacuum Tables for efficient pressing, and a Metal Detector from Lock, UK for quality control to eliminate metal contaminants. Additionally, a Pull Testing Machine is utilized to verify the strength and durability of seams and closures. This combination of skilled workforce and advanced equipment ensures that the finishing process meets the highest standards of quality and safety.

Production Capacity:

- Daily: 20,000 pieces per floor
- Monthly: 500,000 pieces

Garment Types: T-shirts, Polo shirts, Sportswear, Leggings, Jogging sets, Hoodies, Nightwear sets, Sweatshirts, Boxer shorts, and various fashion items for men, women, and children.

Fabric Types: Cotton, Elastane, Mélange, Yarn-Dye Stripe, Viscose, Polyester, CVC, PC, and Pique.

OUR PRODUCTS

WORK PLACE ENVIRONMENT

As a responsible company, V-Teac Fashion (Pvt) Ltd. is committed to establishing a workplace that far exceeds local industry norms. We prioritize our employees' health and safety by providing updated lighting, modern ventilation systems, and additional fire escape routes to create a safe working environment.

We meet all legal requirements for minimum wages, working hours, overtime, and living wages while providing compensation that exceeds the minimal legal norms. Our dedication extends to all applicable labor regulations in order to promote a fair and supportive environment.

Our mission is to not only meet but surpass global working standards and client expectations, while maintaining the highest levels of honesty and social responsibility.

HEALTH & SAFETY

We contribute to medical centers and funds for our employees. We have an internal medical unit led by an MBBS doctor and a full-time nurse to provide appropriate medical facilities and instructions for our personnel. We offer free medicine and first aid training for all staff. All floors have suitable first aid boxes. We have a child care unit for our employees' children.

SECURITY

The organization prioritizes access control, physical security, procedures, personal safety, and security awareness training. Security precautions are in place to prevent illegal entry to the production premises.

Our security measures include threat awareness and security training, loading/unloading training, business partner monitoring, monthly internal security audits, drug and alcohol testing, internet security, CCTV monitoring of the factory area, and vehicle checks with metal detectors and mirrors.

FIRE SAFETY

We have emergency fire exit stairs for optimum employee evacuation during a fire. We schedule fire safety training on a regular basis, led by local government representatives. Workers receive training on the following:

SI No	Name of the Equipment's	Pcs
1	Fire Extinguisher	72 pcs
